

**BROOKLYN**

The Brooklyn Log Cabin is a fantastic looking building, with double doors and double windows in double glazing of course, this means that in the summertime the light will flow into the room. This is one of the largest areas of space that we can offer open plan on a Log Cabin with 44mm thick walls, so we would recommend this to those looking for a workshop or home office. The delightful aesthetic of the building will highlight almost any standard sized garden with ease, especially when coated in a colourful timber treatment.
